Profile

Tiffany is a graduate of Carroll University's Doctor of Physical Therapy Program in Waukesha, Wisconsin. Her clinical experiences include a wide variety of settings such as intensive care, acute care, workers compensation, inpatient neurological rehab, and outpatient orthopedic rehabilitation. Tiffany loves having the opportunity to work with patients of all different backgrounds and empowering them to take control of their bodies.

Tiffany is passionate about getting patients to their prior level of independence in order to return to everyday tasks and recreational activities. She values creating trust as the foundation of her relationship with her patients in order to attain her patients therapy goals. She takes a comprehensive approach emphasized on patient centered care, interprofessional collaboration, and attaining patient specific goals. She is a firm believer in a growth mindset and being a lifelong learner.

Outside of the clinic, Tiffany enjoys spending time with her family and friends, hiking, cooking/baking, painting, and binge watching new TV series. She is a passionate traveler and loves exploring the world we live in.
